Danbury Parish Council will generally not permit parking on Pitch 2 due to the potential damage caused by cars to the grass areas.

Any requests for parking need to be submitted to the Facilities Committee at one of its meetings held in May, July, September or November. Requests must be made in writing detailing the reasons for the parking request and the measures that will be taken to safeguard pedestrians and users of the Dawson Memorial Field. Written authorisation will be given to the organisers if permission is granted; without this permission the Parish Council reserves the right to report the parking as unauthorised parking and take any necessary actions to remove the offending vehicles.
